

V PRAVEEN KUMAR

ABOUT ME

As an aspiring front-end developer and web designer, I bring a passion for learning and honing my skills. Despite being new to the industry, my self-motivation drives me to excel. I am committed to delivering high-quality work and contributing to team success. With a keen eye for detail and creativity, I aim to craft visually stunning and user-friendly digital experiences. I am eager to join a dynamic team where I can learn and grow. My dedication and enthusiasm make me a valuable asset to any organization.

PROJECTS

Title: Dynamic Portfolio Website

I spearheaded the development of a responsive portfolio website, employing HTML, CSS, and JavaScript. Utilizing media queries, I ensured seamless adaptation for various screen sizes, prioritizing user experience on phones. With the ScrollReveal library, captivating animation effects were seamlessly integrated, guiding users through content. Typed.js added interactivity, introducing visitors to my skills and experiences. The website features a sleek design, emphasizing accessibility across devices and browsers. This project underscores my proficiency in web development and dedication to creating impactful digital experiences.
